NUMBER 200

Mrs. George, President Of State W. C. T. U. Launches Drive For \$250,000 Dry Fund

Harrisburg, Pa., June 18.—The drive for \$250,000 to aid Governor Pinchot in enforcement of prohibition was formally launched throughout Pennsylvania today by the W. C. T. U.

Mrs. Ella M. George of Beaver Falls, President, issued a call today for contributions from "all citizens of Pennsylvania." She will direct the campaign in all districts of the state having local organizations.

"These funds will be placed at the disposal of Governor Pinchot, who is the only person in a position to enforce the law," Mrs. George stated in her letter.

PRIVATE FUNDS CAN BE USED; GOVERNOR TOLD

Harrisburg, June 18.—The Governor of Pennsylvania has the right to accept funds to defray expenses of enforcement of laws supplementing the work of the various agencies of state government, such as the \$250,000 proposed by the Women's Christian Temperance Union, to replace the item refused by the Legislature, according to an opinion given tonight by Attorney General George W. Woodruff.

The opinion was given in response to a request by the Governor following receipt of a \$1,000 check from Senator T. Larry Hyde, of West Chester, and several \$1 contributions. The Governor said a number of other contributions had been made and Mrs. George had been named as treasurer. The Governor indicated the handling of the funds would be entirely outside of the state government. Before he asked Judge Woodruff for his opinion the Governor said it plain he had no desire about using the money or the appointment of special deputy attorneys general to handle enforcement cases, whether they were paid \$1 or \$1,000 a year.

"There are 10 ways of going about it," said the Governor.

HAZELINE SENT TO A WARMER CLIMATE; SAME COMES HERE

Washington, D. C., June 19.—Prohibition Commissioner Hayes today announced the shifting of Federal Prohibition Division Chiefs, who direct the operations of prohibition agents.

R. Hazeltine has been transferred from the eastern Pennsylvania, southern New Jersey division to Florida with headquarters at Jacksonville, succeeding A. Stroup, transferred to the North Carolina division with headquarters at High Point, N. C.

R. Same, formerly in charge of the North Carolina area, transferred to the eastern Pennsylvania, southern New Jersey division succeeds Hazeltine.

FULLER AND M'GEE, BUCKETERS, WILL SERVE ONE YEAR

New York, June 19.—Edward M. Fuller and W. F. McGee of the bankrupt bucket-shop firm of E. M. Fuller & Company were sentenced today by Judge Nott to state prison for from a year and three months to four years, said he was being lenient because of their alleged poverty and because they have pleaded guilty.

THE DAMP ROAD OR THE DRY ROAD?

"SMILING GIRL BANDIT" IDENTIFIED BY WIDOW OF TESMER, WHOM SHE SHOT

Chicago, Ill., June 19.—Frances Thompson, alias Fred Thompson, was identified today as the "smiling blue eyed" girl bandit who killed Richard C. Tesmer at his home, Chief of Detectives Michael Hughes announced.

Police said that the prisoner was abnormal and posed sometimes as a man and sometimes as a woman.

Tesmer's widow made the identification at the Tesmer home, Hughes said.

The alleged girl bandit also was known as Frances Barick.

The girl, dressed in feminine attire was arrested in a raid on a north side apartment early today by a police squad headed by Sgt. Cusack.

When arrested the girl wore a pretty black beaded dress, satin pumps and black silk stockings. When the police squad entered the room she said: "Well I suppose you want me for the Tesmer murder."

The Elk Tanning Co. Will Build Eight Two Story Houses On Bigler Avenue

Keeping step with the spirit of progress and upbuilding which has struck our town like a cyclone the Elk Tanning Company has secured permits from Borough Council for the erection of eight two story dwelling houses on Bigler avenue which will be utilized to house new employees at the tannery.

YOUTHFUL ELOPERS LOST IN PHILADELPHIA

Philadelphia, Pa., June 19.—Fred Donovan, son of John Donovan, president of the General Electric Company of Cleveland, and Doris Borcorsek, aged 17, daughter of Frank E. Borcorsek, president of the United States Aluminum Company of Cleveland, were taken into custody here today as runaways.

The young high school students told the authorities they left their homes in Cleveland last Wednesday to elope to Lexington, Ky., but had lost their way and had finally driven in their automobile to Philadelphia.

LEVIATHAN JOYRIDE OFF TODAY; LASKER HOST TO OVER 600

Boston, June 19.—The Leviathan will sail this afternoon on her five-day trial voyage. She will carry nearly 600 invited guests and A. D. Lasker, retiring chairman of the Shipping board, will be host.

The trip is a test preparatory to the liner's entrance into trans-Atlantic passenger service on July 4th as "queen" of the American merchant marine.

ODD FELLOWS BASKET-PICNIC THURSDAY, JUNE 21ST

The 94th annual meeting of the Independent Order of Odd Fellows will be held in the Clearfield Park on Thursday, June 21st. The meeting will be featured by a basket picnic and every Odd Fellow and Rebekkah is invited to be present.

A real feature of the gathering will be an address by Frank Shanon, past grand master, of Philadelphia.

Investments, Good And Bad, Subject Of Very Able Talk Last Night

Right in line with the Commercial Club campaign to save the money of the unwary investor, was the address given last evening before that body at the Jordan Hotel when about seventy five club members and guests assembled at the call of President Philip B. Reed. In addition to Frederick Charles, Statistician for Harper & Turner of Philadelphia, the club was honored with the presence of W. G. Jolly, Assistant Cashier of the Tradesmen's National Bank of Philadelphia and Theodore Jackson, Cashier of the Merchants National Bank of Philadelphia. Mr. Jolly responded to an invitation to speak with a few remarks and Mr. Jackson, like all Phillipsburgers, played modesty and was excused.

The title of Mr. Charles' address was "Sound Investments and The Opposite" and while the subject of investments on the surface may appear to be very complex and nonunderstandable to the average man, Mr. Charles attacked the subject from an angle which made it plain that only common sense was required for protection against bad investments. He said "there are three classes of people who invariably lose money through what are called bad investments. The avaricious, who hope to drive large profits from small risks; the impulsive, who rush into deals without due thought of investigation and the glib, who accept all sorts of glowing promises and guarantees from strangers without reservation."

The remedy he said was to be conservative and to do business only through recognized legitimate channels: His arraignment of the bucket-shop and his explanation of that ignominious institution was excellent. He warned his hearers against the promoter who sought to sell his stocks on the argument of the millions that had been made in the telephone, the air brake, the Ford Motor, Standard Oil, Coca-Cola, and so forth. Beware of the printed prospectus and the references to successful enterprises.

The Progress regrets that space will not permit of our printing the address in full today but it contains so much wholesome advice that we will publish it in full tomorrow. Every man with a dollar to invest now or later should read it.

MOVE ON TO GIVE BRADFORD BURIAL GROUND CLEAN-UP

A number of the good people of Bradford Township have decided to put the old Bradford Cemetery in good shape for the Bradford Homecoming which will be held in the near future and in order that a good job be made of it Thursday, June 21, has been set apart as a labor day.

On this day every person who has loved ones buried there is requested to come out for a day with picks, shovels, rakes, etc., to join a busy throng of workers who will put things in good shape. Particular attention is given to graves that have been neglected and the purpose is to make the cemetery as beautiful as possible. The men will be there all day and everybody in the community is requested to be there. Many Clearfield people have loved ones resting there and it is hoped that these will respond to this request as well as those from in Bradford. Thursday being a half holiday here, there should be many who can go and work at least half a day.

NOTICE SUBURBS AND RURAL

Bear in mind that all business places of Clearfield except the banks are closed on Thursday afternoons. Do your shopping Thursday morning.

Misses Louise Edmiston, Mable Wilson, Virginia Williams, Margaret Gill, Edyth and Evelyn Underwood left for Indiana Normal where they will spend the summer.

Misses Mildred Watson, and Grace Maines left for Lock Haven Normal where they will attend the summer.

WIDENING OF MARKET AND SECOND STREETS IN CENTER OF CITY WILL BE PUT BEFORE COUNCIL JULY 2ND

Chairman Rosser Announced Last Evening That
a Definite Proposition Would Be Put Before
Council, and Property Owners Are Interested

BUSY MEETING HELD LAST EVENING

The regular semi-monthly meeting of Council held at the Borough building last evening was attended by eight of the twelve members of Council. President Rosser was a little late in arriving and Councilman Charles Callahan of the First Ward was chosen president pro tem and "held the reins of authority" until Mr. Rosser arrived and took over his place.

More Paving For Front Street.

A. K. Wright was present and brought the matter of the long-pending proposition to pave Front street before Council. Mr. Wright stated that the property owners living between Market and Walnut streets asked to have these two blocks paved with concrete and would pay two-thirds the cost of such paving, as per the wishes of Council on such paving of interior streets. A resolution was promptly passed deciding to accept the proposition and referring the matter of estimate of cost, materials, etc., to the highway committee of Council for report and recommendation on same at next meeting.

This is the usual procedure in all such cases and had this plan been adopted when the proposed paving was first brought to the attention of the Council, the work of actual paving would no doubt have been under way by this time.

Repairs To South Second Street.

Chairman Beahan of the Highway Department brought up the matter of repairs to the tarmac section on South Second street, between Walnut street and "the Point." He was authorized by Council to proceed with his plan for patching and repaving this street.

Want Sidewalks Built.

Interested property owners made complaint once more regarding the lack of sidewalks on West Fifth and West Third avenues and notices to build walks were ordered served on the following property owners:

West Third avenue—C. E. Shirley and Dr. W. E. Reilly.

West Fifth avenue—Charles Connors, Herbert Jury, Clarence McFar-

land, Mrs. Thomas Campbell, and Daugherty, Ed T. Bick, Rhinehart, Ada C.

Want Sewer on Street.

The question of a permit for extending a drain from the Ross building to the Cherry street sewer was brought to the attention of Council and in view of the permanent improvement of the property along which the proposed sewer passed Council decided to have the property owner place his sewer under the brick street.

Cherry Street Sewer Repairs.

Chairman Jay of sewer committee was authorized to go ahead with his plan for improving the Cherry street sewer between Third and Fourth streets, which provides for the placing of an additional 15-inch sewer on the street in the block mentioned.

Street Commissioner's Salary Increased.

The salary of Street Commissioner Graham was increased to \$140 per month on recommendation of the highway committee.

Improving Bigler Avenue Curve.

The work of improving traffic conditions at the foot of Bigler avenue hill by removal of the line fence to give a view up and down the hill at this point and the widening of the paved street a distance of twenty feet is now under way. Engineer Ross reported to Council. This will be a decided improvement when completed and will remedy a highly dangerous condition.

Proposal to Widen Streets.

Chairman Rosser announced that a proposition would be made to Council at its next meeting by interested property owners who are seeking to have Market and Second streets widened through the business district. The proposition is to have the street widened five feet on each side, the cost of the paving of the extra ten feet to be borne by the abutting property owners while the borough will be asked to repave or otherwise improve the remainder of the street.

GREAT WALLS OF FLOWING LAVA MAKE 100,000 ITALIANS HOMELESS; KING VICTOR EMANUEL OFF FOR MT. ETNA

Lingue Glossa, June 19.—The situation here is tragic and desperate. The lava is only 125 feet away. Houses are crumbling. The heat from the lava is unbearable and the repeated earth tremors shake buildings from their foundations.

Many inhabitants have fled. Soldiers have come in with trenching tools and are working desperately in the hope of diverting the lava from the city proper. One of the richest and most vital districts of Sicily lies beneath an expanse of molten lava.

Catania, Sicily, June 19.—From the path of five fiery avalanches of lava thousands of Sicilian farmers are fleeing with their families, animals and household goods today while the violent eruption of Mt. Etna, which is rendering 100,000 persons homeless, continues.

Already ten townships have been "swallowed into oblivion" beneath the devastating flow of molten metal, which gains in heat as fresh explosions and earth tremors shake the volcano's base.

From over shoulders as they flee, the farmers see the advancing lava walls, thousands of feet wide, 30 to 40 feet high, carrying along great rocks, weighing tons. A bristling heat precedes the rushing lava. Human life is impossible within a mile; wells for miles around have dried up and vegetation is withering.

King Victor Emanuel was reported coming here to direct the relief work.

MRS. E. C. REEVE'S RECOVERY ASSURED

We are pleased to be able to announce that Mrs. Reeve, wife of Dr. E. C. Reeve, is now on the high road to recovery and expects to be able to leave the sanitarium in about one month. Mrs. Reeve's mental condition has cleared up wonderfully and completely her first letter since being taken ill being received by the daughter little Miss Rebecca. She is now recuperating from a second surgical operation and her physician says that when her physical strength is restored following this operation she will be back to her normal health, which is indeed good news to the many friends of Dr. and Mrs. Reeve in Clearfield.

Pinchot Lays Off For A Two Weeks Rest Before Tackling Legislation

Harrisburg, Pa., June 19.—For the first time since he became Governor five months ago Gifford Pinchot today laid aside the rigors of office for two weeks of practically unbroken recreation.

With the legislature adjourned and three weeks remaining in which to consider or reject bills, the Governor of Pennsylvania "took to the woods." Except for a few commencement addresses and a meeting of the Executive Board in Harrisburg June 27th, his time will be spent at his home in Milford with Mrs. Pinchot, who is returning from Europe Friday.

Baseball umpires talking of organizing should come out for less pop bottles and more cops.

Scientists says the next war will be fought by radio. Way our radio sounds, it's going on now.

Real fighters at the Dempsey-Gibbons bout will be those trying to find a place to sleep.

California woman asks divorce so she can live in Michigan. Now California can laugh that off.

These are the days the permanent waves meet the wild waves, leaving only the permanent waves.

Additional Tea Tables

Mr. and Mrs. Harry Davis and family and Mr. and Mrs. Joseph Sles motored to DuBois Sunday and spent the day with relatives and friends.

Mrs. Ord Wilson spent Sunday at the home of her daughter Mrs. John V. Snyder in Curwensville.

Mr. and Mrs. Jack Lester have left for Tappan Lake, N.Y., where they will spend the summer.

Charles Callahan and Gus Lawhead left today for Detroit on a short trip.

P. B. Read and Cecil F. Wilson have returned from Princeton University where they attended the end of the year ceremonies.

Mrs. Art Ercement and sons, who have been spending the last two weeks at the home of Mr. and Mrs. Ernest I. Swales of Clark street, have returned to their home in Canton, Ohio. Mrs. Ercement is a sister of Mrs. Swales.

Mrs. Ernest I. Swales, who has been ill at her home for some time, is able to be about again.

Misses William Spoke, Mary Fulton left for Marion Normal where they will take the summer course in teaching.

REBECCAS ENTERTAIN

A highly interesting and very much appreciated entertainment was given in the I. O. O. F. hall Monday evening by the Rebecca Lodge. A fine crowd was present and thoroughly enjoyed the following well-rendered program:—Violin solo, Mrs. Swales; vocal duet, Mrs. Lansberry, Mrs. Ward; whistling solo, Alex Black; piano duet, Mrs. Black, Mrs. McBain; vocal solo, Miss Kolbe.

Following the program games were enjoyed and a delicious luncheon served.

FORD MOTOR COMPANY CELEBRATES TWENTIETH BIRTHDAY ANNIVERSARY

Detroit, Mich., June 18.—The Ford Motor Company is twenty years old today.

And this birthday anniversary finds it enjoying the greatest prosperity in its history and engaged in carrying out an expansion program of enormous magnitude, necessary to bring manufacture up to meet the ever increasing demand for Ford Products.

In the score of years which have passed since its incorporation on June 16, 1903, the growth of the company has been amazingly rapid and now its activities extend to nearly every country on the globe and the Ford Car is in use in practically every land on earth.

The capital originally subscribed in the company was \$100,000 of which only \$28,000 in cash was actually paid into the treasury. Among the twelve stock holders with the company in its infancy Henry Ford held 25 per cent of the stock.

Ford "sold" his car to the public at the very start by practical demonstration for he piloted the first Ford racer himself and won race after race in all parts of the country. Driving old "999" on an ice track at Baltimore Bay, Mich., he was the first to break the mile-a-minute record.

In 1907 Mr. Ford acquired additional stock sufficient to bring his holdings in the company up to 58 1/2 per cent.

Development of the company since 1908 when the model "T" Ford Car was first placed on the market has been marked by unusual success until now it occupies the foremost position in the industry.

In 1918, Mr. Ford set a new standard for the industrial world when he announced his now famous \$5.00 a day minimum wage and the \$10,000,000 profit-sharing plan, a move that gains him international fame.

Many will remember, too, year or so later when announcement was made that if sales went to a certain figure every Ford purchaser would receive a rebate. The sales passed the figure and checks went out by the hundreds of thousands.

When in 1919 Edsel B. Ford assumed the presidency, his father turned over to him all the responsibility of that office and he has taken an important part in all developments of the company since that time. Upon becoming President, Edsel Ford purchased the remaining 41 1/2 per cent held by outside stockholders and on July 9, 1919 the Company was reorganized under the laws of Delaware for an authorized capitalization of \$100,000,000.

In his ambition to do the greatest amount of good for the largest number of people, Henry Ford always has kept the Ford car within the reach of the person of average means. Last October the price of Ford cars was again reduced, bringing the various types to the lowest level in the history of the company. And only recently the inauguration of the Ford Weekly Purchase Plan has opened the way to automobile ownership for additional millions of people who can now buy Fords on weekly payment as low as \$5.00.

The first car manufactured by the Ford Motor Company was on the road in June and sold the early part of July, 1903. In the initial year, 1903-04, the company produced 1,708 cars and each year has seen a steady expansion until in 1922 production totaled 1,351,333 and this year will pass the 1,500,000 mark, a figure which it is estimated will equal if not exceed the combined output of all other automobile companies in the United States.

Since its start the company has produced more than 7,750,000 Fords and sent them to all parts of the world and more than 6,000,000 are now in use in the United States alone. Manufacturing methods of the Ford Motor Company have been and remain the marvel of engineering experts of the world. All are based on the most scientific principles, dis-

Bedroom Wall Protection.
While visiting a friend I discovered her way of preventing beds from scratching the walls when moving them. Tacked to the baseboard at the head of each bed was a strip of picture molding a trifle longer than the width of the bed and painted to correspond to the woodwork. The casters rolled against the molding, and there was no danger of injury to the wallpaper.—Washington Post.

THE JUNE BRIDE AND HER GIFTS

It's an important step in the life of any woman when she becomes a June bride. She dates the rest of her life from that happy day. And it behooves her friends to make her gifts that she will cherish for the rest of her life.

We have just such gifts, whether it is some small item for personal use or some larger gift that she can share with others.

We want you to come in and see these gifts and see how little it will cost to make just the gift you'd like to make.

W. W. O'BRIEN

GIFTS for JUNE BRIDES

Come in and see the gifts that we have here for the June bride. First comes the various showers and we have a variety of gifts for these that will be just what you are looking for.

For the great event we have a wonderful array of gifts that any bride will appreciate. To name all the gifts we have would take a page of this paper but if you will take a few minutes and shop through the store, you will be sure to find just what you are looking for.

TAKE THE MILK OFF THE PORCH AS SOON AS IT IS DELIVERED

These mornings are hard on the milk as the atmosphere is such that it works on the various ingredients and soon turns the milk sour.

We want you to take in your milk as soon as the wagonmen deliver it and put it on ice. This will obviate the possibility of disappointment when you come to use the milk and possibly find it sour.

We put the milk there in the best of condition. Help yourself to keep it so by putting it on ice as soon as possible.

VIRGINIA

CHOCOLATE SHOP

Ford Motor Company.

(Continued From Page Two.)

tinctly individual in their advanced
steps and they bring quantity produc-
tion with high quality coming auto-
matically in the process.

Under its present expansion pro-
gram the company is carrying out on a
larger scale than ever before its
policy of effecting every manufactur-
ing economy possible. Thus with
costs cut to minimum all along the
line, from primary raw materials to
finished cars, trucks and tractors, it
is able to give the purchaser a high-
quality product at a very low price.

It has its own coal mines in West
Virginia and Kentucky and iron ore
mines and forests in northern Michi-
gan.

The Ford railroad, the Detroit, To-
ledo & Ironton, connects with practi-
cally every trans-continental line,
which affords unusual shipping facili-
ties.

At River Rouge, with a plant area
of 1,200 acres, the company besides
having the largest foundry in the
world, operates its own blast fur-
naces, machine shops, body plant, saw
mill, coke ovens, cement plant, paper
mill, power plant, locomotive repair
shops and the Fordson Tractor plant.

The parent plant of the company
in Highland Park occupies nearly
300 acres of which 123 are under
roof. Here are the general offices,
the Detroit sales branch, the boys'
industrial school and the world's larg-
est individual automobile plant.

The company has a glass plant at
Glassmere, Pa., another at Highland
Park and a third is under construc-
tion at River Rouge.

There are also manufacturing units
at Hamilton, Ohio; Northville, Mich.
Troy, N. Y., Iron Mountain, Mich.
and several points in and near De-
troit.

A \$1,200,000 building under con-
struction at Dearborn, Mich., will pro-
vide a new home for the Ford En-
gineering Laboratory. It also will
house the plant of the Dearborn Pub-
lishing Company, publishers of the
Dearborn Independent, the Ford In-
ternational Weekly.

There are thirty-four branches of
the Ford Motor Company, in the
United States of which twenty-eight
are assembling plants. These have
all been improved and enlarged with-
in the last year and today are produc-
ing cars and trucks at the rate of
6,700 every eight hour working day.

There are more than 9,000 Ford
dealers in the country and over 15,000
authorized Ford service stations
making a total of more than 24,000
points of contact with the motoring
public.

Foreign branches and associated
companies are located at Buenos
Aires, Sao Paulo and Montevideo,
South America; Havana, Cuba, Cop-
penhagen, Denmark, Antwerp, Bel-
gium, Manchester, England, Barce-
lona, Spain; Bordeaux, France and
Trieste, Italy. There also is a ma-
nufacturing plant at Cork, Ireland.

The Ford Motor Company, of Can-
ada, Ltd., located at Ford, Ontario,
just across the river from Detroit
has an annual output of 75,000 Ford
Cars and Trucks and does business
not only in Canada but in the British
possessions.

The Fordson Tractor was brought
out in 1917, during which year 254
were produced. It was developed
after years of work and experiment
by Henry Ford and his engineers and
presents a most sturdy and depend-
able power plant, easy and economi-
cal in operation. Like other Ford
products, it met with almost instant
success and at present the Fordson
plant at River Rouge is producing
tractors at the rate of 500 a day.

The Lincoln Motor Company, or-
ganized in 1917 to produce motor
cars of exceptionally high quality, was
acquired by the Ford Motor Company
at a receivers sale February 4, 1922
for \$500,000 and only recently Henry
Ford paid to the creditors of the com-
pany an additional \$4,000,000 to make
up the balance, though under no obli-
gation to do so.

The Lincoln Motor Company was
re-organized under the laws of Mich-
igan on March 29, 1922, for an author-
ized capitalization of \$15,000,000. It
is now known as a division of the
Ford Motor Company and has an an-
nual capacity of 10,500 motor cars.

Not only is the Ford Motor Com-
pany the greatest automobile manu-
facturing institution in the world to-
day, but it stands alone, a stupendous
industrial marvel in every activity
of which there permeates the person-
ality and genius of its founder and
guiding spirit, Henry Ford. Adv

his appointment at the office of A. M.
Liveright in the Borough of Clear-
field, Pennsylvania, on Friday, July
13th, 1923 at ten-thirty o'clock A. M.
at which time and place all persons
interested in this matter may attend
and be fully heard.

JOHN B. McGRATH, Auditor
June 15th, 1923. 6/19/23 (7,3,4)

ODDS AND ENDS AND THINGS

By J. D. C.

Automobile drivers from the sec-
tions wherein the 17-year locust is
epidemic at present complain of the
winged pests invading their cars and
abighting on the occupants. At least
one serious accident, that at Barlett
Sunday morning, was caused by a lo-
cust. The driver of this car when he
saw the bug alight on his arm imme-
diately attempted to brush it off and
the accident occurred when he took
his hand off the wheel. It might be
well to add that a locust will neither
sting nor bite, as every fisherman
who has carried them in his pocket to
serve as trout bait will testify. There-
fore when a locust lands on you, don't
get excited. He can't hurt you even
if he wanted to and if you must swat
him stop the car before going after
your unwelcome visitor.

Informed taxation experts say that
the amount of taxes now paid by the
American people is larger than the
whole foreign trade of the United
States. This amount is four times
greater than the total profits of our
foreign trade with all the world. The
increase of American taxes in the last
few years comes to a larger sum than
all the exports of the United States
to all the nations on earth.

Locally and nationally, Americans
are taxed nearly \$8,500,000,000 a
year. That is \$50 on the average for
every man, woman and child, or al-
most \$360 a year for the average
American family.

The result of this is that while ten
years ago this country had about \$8-
000,000,000 a year of new capital for
new development work, today only
about \$4,000,000,000 a year is avail-
able. Taxes have quadrupled and
business has been crippled.

Talking Studebaker Is The Talk Of The Town; A Novel Advertisement

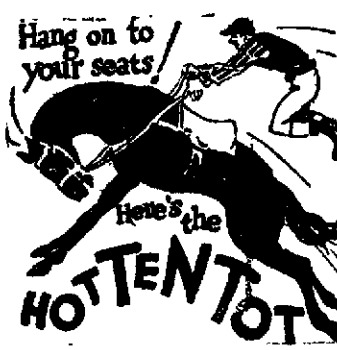

Here is one of the things that a
man must see to believe. Of course
we knew that Studebaker had a
reputation for truth and honesty but
when they told us they would raise
an automobile here that would answer
all kinds of questions in a human
voice we thought they were kidding
us. We even considered banning
such advertising from the columns of
The Progress. But we have seen it
and it really does answer question
in a human voice.

The car is jacked up off the floor
and no wires or other paraphernalia
are visible. There is no radio equip-
ment or any other hookup to reveal
the secret of the machine. Ask this
Studebaker question about its engine
and a clear voice in reply comes out
of the hood. Ask a question about
the body and the voice comes from
the body. Ask about the tires and
the voice comes from the tire ad-
dressed.

Over in Altoona recently this car
was standing along the street and a
woman who passed was hauled by it.
She gave a look and gain heard the
voice coming from the engine hood.
That was too much. She fled in fear.
So if your heart is weak stay away
from the Talking Studebaker which
will be here tomorrow at the Ester
garage.

Why Thirteen Is Unlucky.
Thirteen is supposed to be the un-
luckiest of numbers. In ancient times
it was quite the reverse. Men in those
days always counted in dozens, and
it was customary to add one "for luck."
The baker's dozen is a modern sur-
vival. The present belief that thir-
teen has a baleful influence comes
from the Last Supper, when Jud
Ischariot was the thirteenth at table
and the first to flee from the altar.

Woman Seeks Advice.
"Dear sir," writes a woman, "our
family name is Legg and we have a
two-months-old baby boy. I have
named him Walter, but his father has
begun calling him Boot and the nick-
name sticks. If you were me, what
would you do about it? I don't want
one of my children known as Boot
Legg."—New York World.

It'll have you off your seat
riding all the way.

Entered in Post Office at Clearfield, Pa., as second class mail matter.

Six little children are left fatherless today at Washington, D. C., because their fool dad wanted to prove that he had "nerve." Leaving the family brood in the flivver he hired an airplane taxi to take him for a ride. Not content with the ride he attempted to dive from the wing of the plane into the Potomac River. As he swung into space he cried out, "I have plenty of nerve."

But did he? He must have expected his family to have more. At least he subjected them to the necessity of having more.

This evening one of those dampfools who advertise themselves as a human fly will climb to the top of the Philips Hotel at Philipsburg. In doing so he will subject many people to the danger of fainting and heart failure. No good can come out of such an exhibition. It is to be hoped that Mayor Kittelberger will not allow the exhibition here. Many cities have banned such exhibitions.

We have often informed the readers of this newspaper that we regarded the Clearfield Park as a real asset to the town, and one which our people should appreciate. Just how much of a "community proposition" the Park is, and what a necessity and advantage it is to our people generally, we give herewith a schedule of the activities at the Park during the year 1922. Here it is and it is not only worth reading, but will be surprising, at least to those people who have not given much thought to what an important part the Park plays in the recreational life and activity of the town and community generally:

CLEARFIELD PARK ASSOCIATION ACTIVITIES, 1922

- May 30.—C. H. S. Athletic Association Annual Program.
June 6.—600 pupils Clearfield High School, all day.
June 15.—Clearfield Firemen's Reunion, evening in Exhibition Hall.
June 20.—B. P. O. E. supper and dance, afternoon and evening, Exhibition Hall.
June 21.—Home Missionary Society Trinity Church, 11 A. M. to 6 P. M.
June 28.—Pennsylvania R. R. Shopmen of Altoona, all day.
June 29.—Woman's Club, rest room, afternoon to 7:30.
June 29.—Elks Kiddies day.
July 4.—American Legion celebration.
July 20.—Daughters of America, afternoon and evening dance.
July 27.—Old time square dance in old pavilion.
July 27.—American Legion dance in Exhibition Hall.
July 27.—Mrs. Kate Moore's Sunday school class, afternoon.
August 3.—Italian Band Concert, evening.
August 3.—Italian picnic, afternoon and evening. Band Concert.
August 3.—Mr. John Moore's class M. E. Sunday school, old pavilion.
August 3.—James and Mirkin's dance, Exhibition Hall, evening.
August 5.—Class No. 4 Presbyterian Sunday school, afternoon and evening.
August 6.—Mann family reunion.
August 9.—American Legion Band concert, evening.
August 10.—Derrick's family reunion and picnic.
August 16.—Italian Band evening concert.
August 17.—Presbyterian Home Missionary Society.
August 22.—Baptist Church Sunday school dinner and supper.
August 18.—Mrs. W. S. Bouton's class, Trinity M. E. Church.
August 23.—Penn Public Service employees, afternoon and eve.
August 23.—American Legion Band concert.
August 24.—Lutheran Primary Sunday school.
August 24.—A. M. E. West Side Sunday school, afternoon and evening.
August 25.—W. C. T. U. picnic Friday afternoon.
August 30.—Italian Band concert, evening.
August 30.—A. Jaffre, Philipsburg.
August 31.—James and Mirkin's dance Exhibition Hall, eve.
September 4.—Kanouff family reunion, all day.
September 12.—Roy Boyce Sunday school class.
October 10.—Miss Bailey and friends, rest room, evening.
November 27.—West Side Woman's Club, Rest Room.

This does not include baseball and football games, or the use of track and stables for the season race horse training.

PROOF THAT THE CHARGE
HAS BEEN PAID

If you haven't a checking account you are missing one of the greatest safety devices in modern business. It would enable you to avoid the danger of losing currency carried around with you, and of having to pay a bill twice. The endorsement, on the back of your check, is valid acknowledgment that the charge against you has been paid.

CLEARFIELD TRUST CO.

IT'S A DOG'S LIFE!

TRINITY CHURCH ITEMS

Sunday was a gala day at Trinity. The Bible School was deeply interested in the study of Esther, the Religious Patriot, with the exceptional music and other events, made a very profitable period. The scene in the auditorium which the baptism of eighteen infants presented, banked up with a noble floral design, was participated in by a great congregation. The exercises of Children's Day, worked out a very impressive program, entitled "The Secret Whispered to Children" which was no other than "get a Christian Education." This was presented through the four seasons beginning with fables, flowers, birds and other wonderful living things. First came Winter soon to be accompanied by ten little folks dressed in white, representing snowflakes, and they nestled around sleeping flowers. This was followed by Spring, and butterflies, and then Summer, with its reaping, and Autumn. No description of this presentation can adequately set forth the beauty of this program.

The choir rendered their parts with fine effect. All music by the little folks was a rare treat for the older people, who heard the interpretation of autumn leaves, snowflakes, raindrops, etc.

The School attendance passed the pastor's figure, (he wanted no less than 500) by ten. Offering for the Education Funds by the School in its session was \$82.85. The congregational offering was \$43.

Mount Zion had a thronged school house to witness the very beautiful and significant exercises of the children. The offering was \$14.03.

In the evening the pastor preached from Luke 5:1-11 on Christ's selection of the first disciples from the fishermen.

The week's events: Wednesday mid-week congregational prayer and praise meeting.
The Woman's Home Missionary Society of the Annual Conference is holding a Carrie Barge House Party in Williamsport Dickinson Seminary from Monday, 18th to 25th. Trinity Church has already sent down Mrs. H. J. Fiegal, Mrs. C. A. Weisgarber, Mrs. George Zerfoss and Miss Charlotte, Margaret Thorn, Leah and Margaret Gilliland, Mary Ellen Knepp, Mildred Bratton, Evelyn Cowdick, Helen Imdorf, Annie Hall, Miriam Porter, Garnett Goss, Georgianna Cathcart. The week end will take others for the Sunday events.

Trinitrotoluene.
"T N T" is an abbreviation for trinitrotoluene, a very powerful explosive used in shells, mines, hand grenades and torpedoes. It is formed from toluene by treatment of this hydrocarbon with strong nitric acid in the presence of concentrated sulphuric acid. Toluene is one of the products of the distillation of coal tar. T N T crystallizes in almost white needles, and at ordinary temperatures it is quite stable; it burns with a smoky flame when ignited. In its chemical composition the molecule of trinitrotoluene consists of seven carbon atoms, five hydrogen atoms, three nitrogen atoms.

WHO FIRST FELT
"LIKE
A
FIGHTING
COCK"?

COCK-FIGHTING was born with the cocks.

But it is only 80 years ago that the first man felt "like a fighting cock!"

Now he has brothers, sisters, nephews, nieces, all over the world—all feeling "like a fighting cock!"

It happens this way. A person half sick with bad stomach, dull and heavy headache, takes Beecham's Pills just before going to bed. Immediately the Pills begin to harmonize the digestive and eliminative organs.

Consequently, this person has a good night's sleep and arises in the morning with clear brain, bright eye, keen appetite, and full of energy for work and play.

It is now just 80 years since Beecham's Pills first began correcting disordered stomachs and stirring sluggish livers and bowels to natural activity—and feeling "like a fighting cock" is associated as inseparably with Beecham's Pills, as the pills are with good health.

At All Druggists—25c and 50c

Progress Editorial For Women

QUESTION AND ANSWER
By FLORENCE DAVIES

A QUICK LUNCH

Three women, one just a silent listener, sat around the little restaurant table. The younger generation furnished the sauce. The two who were on their sundays were agreed that Betty was "nothing but a baby," that she had no self-reliance, no power of decision. Running about with the boys was her great idea of life.

"I am glad she is graduating and will be thrown on her own resources. It will teach her something," said the young woman in the green hat.

"Well, in the meantime, I can't tell her mother how she is carrying on, now can I?" said the friend in the beaded overblouse. "Because, if her mother doesn't watch her—"

"Yes, that's so," agreed Miss Miss Green Hat, as the two went to pay their checks.

The listener's Virginia ham and rolls arrived just then. She had only time to ask herself, "What is the answer?" when a stout gray-haired woman and a pretty, younger woman sat down at the little table. They began at once to talk about "Bill."

"He's telling the truth now," said the younger woman positively. She might have been Bill's mother. Surely number two was Grandmother.

"There he is now," as a sulky-faced, slim boy with a cornet case passed the door and went up to the telephone booth. "He's trying to get me, I'm sure he is. Wait a minute," and out

she dashed.
"He's gone and enlisted with the marines," confided Grandmother. "Those fellows go up to the bank and worry the boys till they get 'em. I got Bill a cornet—had to hear from the whole family about it—but he's possessed to get away."

Mother and Bill came in and sat down. Bill sourer-looking than ever. "You're not going through with it: You ought to be glad we can get you off. Why, you'd be subject to call all your life," said Mother. "You want to go to college and live in a frat house—you'd have a lot more fun."

That's what's the matter of 'em already, too much fun," put in Grandmother.

"And that's the answer," the listener thought to herself.

Time Enough.
In Nevada a woman's club with charitable leanings staged a vaudeville show at the "University of Time," as the state normal institution is facetiously called. One of the women had to return to town early, and not wishing to disturb the other entertainers, she appealed to the officer in charge they had been placed. The latter courteously offered to send her home in his car with a "lady" chauffeur. After mulling up, the homeward journey with the chauffeur (the lady regretted her rashness and decided to extricate herself at all costs. "Are you sure you have time to take me all the way in the city?" she nervously began. "Well, madam, the convict answered. "I have got gallons of gas and fourteen years."

Curwensville's Own Column

Henry Heitmanrath has sold to Joseph Fullerton that portion of the building that he occupies as a billiard and bowling alley. Henry is going out of business in Curwensville for a while and will store his tables and other paraphernalia until sale is found for the same.

A 12-foot concrete walk is in course of construction in front of the dwelling occupied by Lynn Dougherty and family. Ed Pratt is the mechanic, genius who has charge of the improvement.

Painters put in all day yesterday decorating State street with streaks of paint designating stalls for automobile parking. It is a good stunt, but how long will it last.

Frederick Forecy, son of Guy Forecy, had a serious mishap yesterday forenoon. He went out to the garage for a drink of water, slipped and fell, striking his head on some sharp object, getting a gash about four inches long across the forehead and into the bone. A physician was hastily summoned who found it necessary to use a number of stitches to stop the flow of blood and to save the injury.

William Bartell and family and John Connelley and his family left town yesterday morning for a two weeks' motor trip. Their itinerary will take them into West Virginia, Kentucky and Ohio.

William Milliron went to Tyrone Sunday to meet Mrs. Milliron, who was returning home from a lengthy visit with a daughter at Washington, D. C. She was in the city during the Shriner's convention.

Mr. and Mrs. Andrew Anderson, High street, motored to Patton Saturday and spent several days with friends.

Harry Rhodes and family, George street, took a motor car ride over to Altoona last Saturday and remained with friends until Sunday evening.

Miss Alice Jane Gray, of Carnwath, a daughter of Mine Foreman Jack Gray, and a former resident of Curwensville, is a guest of Miss Margaret Helen Moore.

Mrs. Warner, of Clymer accompanied by her daughter Mrs. Georgia Passmore, were guests in the home of Mr. and Mrs. Al Maurey, State street, for several days this and last week.

Miss Libian Olson departed yesterday for Clarion where she will become a student at the Normal school for the next three months.

The following named Curwensville young people left for Lock Haven yesterday to enter as students at the Normal school: Misses Edith Sawtelle, Lois Vaughn, Marjory Murray, Patricia Ardary, Mabel Daul, Lucy Bennett and Leonore Test. Reuben Moore and Byron McDowell also went down the river, having the same purpose in view.

Ira Knepp, High avenue, is confined to his home with an injured knee.

Miss Esther Wigg and her sister, Mrs. John P. Irvin, departed yesterday morning by motor car for a three or four day trip to State College and Bellwood.

Miss Vergenia Kennedy, of Philadelphia, is the guest of several friends this week. The Kennedy family were former residents, the father being the superintendent of Summit tannery for several years, later removing to Reynoldsville where he died.

Mr. and Mrs. Charles Lord and daughter, High street, went to Bellwood and spent the week end among friends and relatives.

Mrs. Lew McDonald, High street was in Ansonville the latter part of last week circulating among old friends and acquaintances.

Charles B. Keller of Harrisburg and Miss Dorothy H. LaBorde of Curwensville were united in marriage Tuesday evening, June 12th, at 5:30 o'clock at the home of Mrs. Marian Good, Harrisburg, by Rev. J. Merrill Williams, pastor of Trinity M. E. church. The bride is a well and favorably known lady of Curwensville, who taught several successful terms in our public schools. The young couple came to Curwensville during the middle of last week and spent several days in the home of the bride's parents, Mr. and Mrs. B. J. LaBorde, George street, where they received the hearty congratulations of the bride's many Curwensville friends. May their pathway be free from thorns but strewn with roses, emblematic of the beautiful month in which they were wedded.

Miss Minnie Brown, a vivacious young lady of Indiana State Normal school, spent the week end with her friend, Miss Jeanette Miller, Thompson street.

Today Curwensville was given over to the Tall Cedars of Lebanon, who swarmed here from all directions to the number of over one hundred. The invasion was made for the sole purpose of instituting Keystone Forest No. 98, the work being done in the Curwensville Opera House by the visitors, including some officers of high rank in the order. Ebenburg Cedars brought a baffle with them which added greatly to the musical part of the work. The new Forest starts out with a membership of over one hundred. Dinner will be served by the ladies of the Presbyterian church at 6 o'clock, and a parade is announced to take place over the main streets of town at 5:30 p. m.

Childish Philosophy. A little girl aged six was asked to state the difference between pride and vanity. After considerable thought she replied: "Pride means, 'I don't think much of you'; vanity means 'What do you think of me?'"—Boston Transcript.

Expressive. Muriel had been to visit a little friend of hers who seemed overprovided with funny relatives. "Mamma" she remarked on returning home, "I feel sorry for Nanna; she's got so many look-after-her-its—Boston Evening Transcript.

780 Studebakers Are Shipped On Banner Day Of Corporation

Big Plants at South Bend and Detroit Bending Every Effort to Meet Country-wide Demand For More Studebakers

When the whistles of the mammoth Studebaker plants at South Bend and Detroit sounded on the evening of May 29 and 20,000 Studebaker employees started homeward, a new record for a single day's production and shipments had been made, for on that day 780 Studebaker cars were forwarded to Studebaker dealers throughout the country. Of the total, 189 were driven overland.

This record represents a single day's production and was achieved without permitting cars to accumulate purposely to establish a new mark. The only extra incentive involved was an effort to more adequately meet the insistent demand from every section of the country for more Studebakers, but this is a daily endeavor because of the thousands of unfilled orders on hand for immediate shipment.

While the production of 780 cars in one day establishes a record for Studebaker, the total is only a little above regular, daily shipments since the additional facilities provided by seven new Studebaker factory units completed and tooled and manned early this Spring, reached capacity production. Although Studebaker's present output is 15,000 cars a month or at the rate of 180,000 cars annually, the demand is far in excess of production and additional factory facilities, begun this Spring and to cost \$5,000,000 are being rushed to completion.

Studebaker manufactures six-cylinder cars exclusively, in three models—the Big Six, Special Six and the Light Six—which are offered in twelve body types. 780 cars, in one day, therefore, represents the biggest day's shipment of six-cylinder cars ever made by any manufacturer.

The increasing popularity of Studebaker cars, which is a subject of common conversation even outside of the automobile industry is attested by the early record of production and sales. In 1918 Studebaker sold 23,864 cars. The following year sales increased to a total of 39,356 cars. In 1920 sales mounted to 51,474 cars.

1921, the year of general business depression, was the biggest in Studebaker's history (up to 1922) when sales reached a total of 66,643 cars. Stated otherwise, the sales of Studebaker cars in 1921 were 29 per cent greater than in 1920, notwithstanding the fact that the total number of cars sold of all other makes, except Ford was 40 per cent less than 1920. Studebaker again established a new record in 1922 with the sale of 110,269 cars. This year will see still another Studebaker record established. Up to July 1 Studebaker will have produced and sold about 80,000 cars, or an increase of 50 per cent over the same period of 1922.

"There are a number of reasons for the universal popularity of Studebaker cars," according to Estep Bros Motor Co., local Studebaker dealer "But chiefly:

"1) Because of their quality, durability and dependable performance in owners' use.

HEARD ALONG THE BANKS OF THE MOSHANNON

The 17-year locusts have just made their appearance in the Hawk Run section. The young people who never before heard of the queer things they shocked to hear the odd noise they made. The trees hereabouts are now beginning to buzz with the voices of their new inhabitants.

Curtis Park, the new residential section on the upper end of South Centre street, is now reaching the stage when it is considered more than a dream. A number of houses have been completed, with one now under construction, that of J. W. Wetter. It is a very beautiful dwelling and occupies two lots on the corner of Curtis Parkway and Drury Court. Another residence, which has been under construction for the past two weeks is that of John F. O'Neill, coal-operator of Morrisdale. It is of red tapestry brick and contains six rooms, a hall and bath. T. E. Dickens, of Philipsburg, is the contractor of the O'Neill home, while the Bellefonte Lumber Company, of Bellefonte and Philipsburg, is building the Wetter home. Both are very beautiful structures and represent a great expenditure.

William P. Knobe, a member of the Osceola Mills High School faculty, whose duties there were completed a couple of weeks ago, will leave for Camp Meade, Maryland, on June 26 to become a member of the citizens' training camp from Clearfield county.

ability and dependable performance in owners' use.

"(2) Because by manufacturing sixes exclusively on a large scale and by building all vital parts in its own plants, Studebaker can effect economies and save the middlemen's profits, and thereby provide maximum value and quality at a low price.

"(3) Because, in the three models of Studebaker cars we have a car of the exact size, style and price to suit every buyer.

"(4) Because with \$35,000,000 of actual net assets, including \$45,000,000 of plant facilities, Studebaker stands unsurpassed in ability and resources to manufacture economically and give the greatest intrinsic value possible for a given price.

"(5) Because of the name Studebaker, which for 71 years, has stood for high grade transportation, integrity, quality, value and comfort."

MRS. G. W. HALL SICK FOR YEARS

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Lima, Ohio.—"Indeed, your medicine is all you say it is! I had very severe troubles such as women often have, and could do no heavy work. I was sick for several years, and from reading your ads. I finally decided to take Lydia E. Pinkham's Vegetable Compound. I am now doing my own washing, which I haven't done for several years, and can walk long distances without those dragging pains and weak feelings. The Vegetable Compound is fine, and I never forget to say a good word for it to other women when they say they need something."

"—Mrs. G. W. HALL, 589 Hazel Avenue, Lima, Ohio.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling. Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved these symptoms by removing the cause of them. Mrs. Hall's experience is but one of many.

"I Like Your Home Cooking"

Said one of our patrons the other day, "There's something about it that makes it taste just like the cooking at home and I enjoy my meals more than at any other place I have eaten since I left home."

That's a mighty good advertisement spoken by one of our patrons.

HARLEQUIN TEA ROOM

Cultivate Cheerful Thoughts. No one can do work when the mind is clouded with unhappy or vicious thoughts. The mental sky must be clear or there can be no enthusiasm, no brightness, clearness, or efficiency in our work. To do the maximum of which you are capable, you must keep your mind filled with cheerful, uplifting thoughts.

Woman Holds Honor. The first woman to talk by telephone is said to have been Mrs. E. G. Kyrle. In 1874, when Alexander Graham Bell was making his first experiments with the telephone at Brimford, Ont., Mrs. Kyrle was teaching school in that place and helped the inventor string the wire and set up his telephone instruments.

MAY BE HELD IN
PRISON LONGER**

Philadelphia, Pa., June 18.—Erwin R. Bergdoll, who is to be released from the Federal Prison at Fort Leavenworth, Kansas tomorrow after serving two years and ten months of a four year's sentence for evading the draft, is not yet clear of the law.

A detainer has been lodged against Bergdoll at Leavenworth Prison on an indictment that is still pending in Federal court here. Assistant United States Attorney Volger said here today that the indictment returned while Bergdoll was a fugitive charges him with conspiracy to bring about his own release from military service.

Mrs. Daniel Connelly and Miss Augusta Connelly are visiting Mr. and Mrs. M. J. McGannon at DuBois for a few days.

BASEBALL NOTES

Sam Shales, the new catches showed up well in practice last night and looks like a real find. Sam will show his stuff in DuBois today.

Peterson worked out at third base last night. Pete is playing out of his place, but showed that he was not afraid to take a whirl at third base. If Mahaffey comes back Peterson will play in his regular position which is second base.

The boys were full of pep last night and feel as though they will cop the game at DuBois today.

Thursday the boys will play the hardest game of the season so far, when they meet Osceola here.

Bob Robinson has been coming along in fine shape and keeps the pep up in his regular position which is second base.

All the ladies should turn out to Thursday's game and give the boys a hand.

The new uniforms are ordered now and should be here shortly. The team will make a snappy looking outfit when they appear in their new togs.

Foot troubles need no longer sap your nervous energy

The pain of those poor aching feet—how you long to get rid of it! For not only is the constant irritation distressing, but, as physicians well know, it saps your nervous energy, too.

This week, from the 16th to the 23rd of June is your chance to get genuine relief from foot ills—without even a change in your usual style of footwear. Aching feet, burning, tender soles, weak ankles, corns, callouses, bunions—it makes no difference; there's a Dr. Scholl's Foot Comfort Appliance or remedy for every form of foot trouble.

Dr. Scholl's Foot Comfort Week
June 16-23

is a nation-wide drive to bring comfort to all foot sufferers. We are behind the movement heart and soul, to build up the foot health of this town. Bring us your foot troubles; and enjoy once more the comfort of healthy, active feet.

Foot comfort is yours if you come to our store

Crowded China
China is larger in area than the United States, Mexico and Central America. It has four times the population of the United States, eight times the population of all South America, almost equal the population of all Europe and one-quarter of the population of the world. The Yangtze delta with an area about equal to Illinois, has a population of 40,000,000, or 400 to the square mile.

Forecasting Weather
When the mercury falls suddenly, in hot weather, look out for thunder or high winds. In frosty weather a rise is foretold. When the weather is already wet and the mercury continues to descend, more rain can be expected. During winter, if the air above the mercury is unsettled, with clouds and ice, unsettled weather conditions are likely to prevail.

VOLUME XVII

THE CLEARFIELD PROGRESS, CLEARFIELD, PA., TUESDAY EVENING, JUNE 19, 1923.

NUMBER 200

Mrs. George, President Of State W. C. T. U. Launches Drive For \$250,000 Dry Fund

Harrisburg, Pa., June 18.—The drive for \$250,000 to aid Governor Pinchot in enforcement of prohibition was formally launched throughout Pennsylvania today by the W. C. T. U.

Mrs. Ella M. George of Beaver Falls, President, issued a call today for contributions from "all citizens of Pennsylvania." She will direct the campaign in all districts of the state having local organizations.

PRIVATE FUNDS CAN BE USED; GOVERNOR TOLD

Harrisburg, June 18.—The Governor of Pennsylvania has the right to accept funds to defray expenses of enforcement of laws supplementing the work of the various agencies of state government, such as the \$250,000 proposed by the Women's Christian Temperance Union, to replace the item refused by the Legislature, according to an opinion given tonight by Attorney General George W. Woodruff.

The opinion was given in response to a request by the Governor following receipt of a \$1,000 check from Senator T. Larry Hyde, of West Chester, and several \$1 contributions. The Governor said a number of other contributions had been made and Mrs. Leah C. Smith, president of the State Council of Republican Women had been named as treasurer. The Governor indicated the handling of the funds would be entirely outside of the state government. Before he asked Judge Woodruff for his opinion the Governor said it plain he had no desire about using the money or the appointment of special deputy attorneys general to handle enforcement cases. Whether they were paid \$1 or \$1,000 a year.

"There are 10 ways of going about it," said the Governor.

HAZELINE SENT TO A WARMER CLIMATE; SAME COMES HERE

Washington, D. C., June 19.—Prohibition Commissioner Hayes today announced the shifting of Federal Prohibition Division Chiefs, who direct the operations of prohibition agents.

H. Hazeltine has been transferred from the eastern Pennsylvania, southern New Jersey division to Florida with headquarters at Jacksonville, succeeding A. Stroup, transferred to the North Carolina division with headquarters at High Point, N. C.

R. Same, formerly in charge of the North Carolina area, transferred to the eastern Pennsylvania, southern New Jersey division succeeds Hazeltine.

FULLER AND M'GEE, BUCKETERS, WILL SERVE ONE YEAR

New York, June 19.—Edward M. Fuller and W. F. McGee of the bankrupt bucket-shop firm of E. M. Fuller & Company were sentenced today by Judge Nott to state prison for from a year and three months to four years, said he was being lenient because of their alleged poverty and because they have pleaded guilty.

THE DAMP ROAD OR THE DRY ROAD?

"SMILING GIRL BANDIT" IDENTIFIED BY WIDOW OF TESMER, WHOM SHE SHOT

Chicago, Ill., June 19.—Frances Thompson, alias Fred Thompson, was identified today as the "smiling blue-eyed" girl bandit who killed Richard C. Tesmer at his home, Chief of Detectives Michael Hughes announced.

Police said that the prisoner was abnormal and posed sometimes as a man and sometimes as a woman. Tesmer's widow made the identification at the Tesmer home, Hughes said.

The alleged girl bandit also was known as Frances Barick. The girl, dressed in feminine attire was arrested in a raid on a north side apartment early today by a police squad headed by Sgt. Cusack. When arrested the girl wore a pretty black beaded dress, satin pumps and black silk stockings. When the police squad entered the room she said: "Well I suppose you want me for the Tesmer murder."

The Elk Tanning Co. Will Build Eight Two Story Houses On Bigler Avenue

Keeping step with the spirit of progress and upbuilding which has struck our town like a cyclone the Elk Tanning Company has secured permits from Borough Council for the erection of eight two story dwelling houses on Bigler avenue which will be utilized to house new employees at the tannery.

YOUTHFUL ELOPERS LOST IN PHILADELPHIA

Philadelphia, Pa., June 19.—Fred Donovan, son of John Donovan, president of the General Electric Company of Cleveland, and Doris Borcorsek, aged 17, daughter of Frank E. Borcorsek, president of the United States Aluminum Company of Cleveland, were taken into custody here today as runaways.

The young high school students told the authorities they left their homes in Cleveland last Wednesday to elope to Lexington, Ky., but had lost their way and had finally driven in their automobile to Philadelphia.

LEVIATHAN JOYRIDE OFF TODAY; LASKER HOST TO OVER 600

Boston, June 19.—The Leviathan will sail this afternoon on her five-day trial voyage. She will carry nearly 600 invited guests and A. D. Lasker, retiring chairman of the Shipping board, will be host. The trip is a test preparatory to the liner's entrance into trans-Atlantic passenger service on July 4th as "queen" of the American merchant marine.

The trip started under a cloud of criticism. It has been called "a junket" and "a million dollar joy ride" on the ground that such an expensive test entailing great expense was not necessary to prove the vessel's fitness.

FUNERAL NOTICE

The funeral of the late J. W. Shimel will be held from the residence of W. G. Boyce Wednesday afternoon at two o'clock. Interment in Mt. Joy cemetery.

Investments, Good And Bad, Subject Of Very Able Talk Last Night

Right in line with the Commercial Club campaign to save the money of the unwary investor, was the address given last evening before that body at the Jordan Hotel when about seventy five club members and guests assembled at the call of President Philip B. Reed. In addition to Frederick Charles, Statistician for Harper & Turner of Philadelphia, the club was honored with the presence of W. G. Jolly, Assistant Cashier of the Tradesmen's National Bank of Philadelphia and Theodore Jackson, Cashier of the Merchants National Bank of Philadelphia. Mr. Jolly responded to an invitation to speak with a few remarks and Mr. Jackson, like all Philadelphians, played modesty and was excused.

The title of Mr. Charles' address was "Sound Investments and The Opposite" and while the subject of investments on the surface may appear to be very complex and nonunderstandable to the average man, Mr. Charles attacked the subject from an angle which made it plain that only common sense was required for protection against bad investments. He said "there are three classes of people who invariably lose money through what are called bad investments. The avaricious, who hope to drive large profits from small risks; the impulsive, who rush into deals without due thought of investigation and the glib, who accept all sorts of glowing promises and guarantees from strangers without reservation."

The remedy he said was to be conservative and to do business only through recognized legitimate channels: His arraignment of the bucket-shop and his explanation of that ignominious institution was excellent. He warned his hearers against the promoter who sought to sell his stocks on the argument of the millions that had been made in the telephone, the air brake, the Ford Motor, Standard Oil, Coca-Cola, and so forth. Beware of the printed prospectus and the references to successful enterprises.

The Progress regrets that space will not permit of our printing the address in full today but it contains so much wholesome advice that we will publish it in full tomorrow. Every man with a dollar to invest now or later should read it.

MOVE ON TO GIVE BRADFORD BURIAL GROUND CLEAN-UP

A number of the good people of Bradford Township have decided to put the old Bradford Cemetery in good shape for the Bradford Home coming which will be held in the near future and in order that a good job be made of it Thursday, June 21, has been set apart as a labor day.

On this day every person who has loved ones buried there is requested to come out for a day with picks, shovels, rakes, etc., to join a busy throng of workers who will put things in good shape. Particular attention is given to graves that have been neglected and the purpose is to make the cemetery as beautiful as possible. The men will be there all day and everybody in the community is requested to be there. Many Clearfield people have loved ones resting there and it is hoped that these will respond to this request as well as those from Bradford. Thursday being a half holiday here, there should be many who can go and work at least half a day.

Misses Louise Edmiston, Mable Wilson, Virginia Williams, Margaret Gill, Edyth and Evelyn Underwood left for Indiana Normal where they will spend the summer.

NOTICE SUBURBS AND RURAL

Bear in mind that all business places of Clearfield except the banks are closed on Thursday afternoons. Do your shopping Thursday morning.

WIDENING OF MARKET AND SECOND STREETS IN CENTER OF CITY WILL BE PUT BEFORE COUNCIL JULY 2ND

Chairman Rosser Announced Last Evening That
a Definite Proposition Would Be Put Before
Council, and Property Owners Are Interested

BUSY MEETING HELD LAST EVENING

The regular semi-monthly meeting of Council held at the Borough building last evening was attended by eight of the twelve members of Council. President Rosser was a little late in arriving and Councilman Charles Callahan of the First Ward was chosen president pro tem and "held the reins of authority" until Mr. Rosser arrived and took over his place. More Paving For Front Street.

A. K. Wright was present and brought the matter of the long-pending proposition to pave Front street before Council. Mr. Wright stated that the property owners living between Market and Walnut streets asked to have these two blocks paved with concrete and would pay two-thirds the cost of such paving, as per the wishes of Council on such paving of interior streets. A resolution was promptly passed deciding to accept the proposition and referring the matter of estimate of cost, materials, etc., to the highway committee of Council for report and recommendation on same at next meeting.

This is the usual procedure in all such cases and had this plan been adopted when the proposed paving was first brought to the attention of the Council, the work of actual paving would no doubt have been under way by this time.

Repairs To South Second Street. Chairman Beahan of the Highway Department brought up the matter of repairs to the tarvis section on South Second street, between Walnut street and "the Point." He was authorized by Council to proceed with his plan for patching and repaving this street.

Want Sidewalks Built. Interested property owners made complaint once more regarding the lack of sidewalks on West Fifth and West Third avenues and notices to build walks were ordered served on the following property owners:— West Third avenue:—C. E. Shirley and Dr. W. E. Reilly. West Fifth avenue:—Charles Connors, Herbert Jury, Clarence McFar-

land, Mrs. Thomas Campbell, and Daugherty, Ed T. Ridd, Rhinehart, Ada C.

Want Sewer on Street. The question of a permit for extending a drain from the Ross building to the Cherry street sewer was brought to the attention of Council and in view of the permanent improvement of the property along which the proposed sewer passed Council decided to have the property owner place his sewer under the brick street.

Cherry Street Sewer Repairs. Chairman Jay of sewer committee was authorized to go ahead with his plan for improving the Cherry street sewer between Third and Fourth streets, which provides for the placing of an additional 15-inch sewer on the street in the block mentioned.

Street Commissioner's Salary Increased. The salary of Street Commissioner Graham was increased to \$140 per month on recommendation of the highway committee.

Improving Bigler Avenue Curve. The work of improving traffic conditions at the foot of Bigler avenue hill by removal of the line fence to give a view up and down the hill at this point and the widening of the paved street a distance of twenty feet is now under way. Engineer Ross reported to Council. This will be a decided improvement when completed and will remedy a highly dangerous condition.

Proposal to Widen Streets. Chairman Rosser announced that a proposition would be made to Council at its next meeting by interested property owners who are seeking to have Market and Second streets widened through the business district. The proposition is to have the street widened five feet on each side, the cost of the paving of the extra ten feet to be borne by the abutting property owners while the borough will be asked to repave or otherwise improve the remainder of the street.

GREAT WALLS OF FLOWING LAVA MAKE 100,000 ITALIANS HOMELESS; KING VICTOR EMANUEL OFF FOR MT. ETNA

Lingue Glossa, June 19.—The situation here is tragic and desperate. The lava is only 125 feet away. Houses are crumbling. The heat from the lava is unbearable and the repeated earth tremors shake buildings from their foundations.

Many inhabitants have fled. Soldiers have come in with trenching tools and are working desperately in the hope of diverting the lava from the city proper. One of the richest and most vital districts of Sicily lies beneath an expanse of molten lava.

Catania, Sicily, June 19.—From the path of five fiery avalanches of lava thousands of Sicilian farmers are fleeing with their families, animals and household goods today while the violent eruption of Mt. Etna, which is rendering 100,000 persons homeless, continues.

Already ten townships have been "swallowed into oblivion" beneath the devastating flow of molten metal, which gains in heat as fresh explosions and earth tremors shake the volcano's base.

From over shoulders as they flee, the farmers see the advancing lava walls, thousands of feet wide, 30 to 40 feet high, carrying along great rocks, weighing tons. A bristling heat precedes the rushing lava. Human life is impossible within a mile; wells for miles around have dried up and vegetation is withering.

King Victor Emanuel was reported coming here to direct the relief work.

is rendering 100,000 persons homeless, continues.

From over shoulders as they flee, the farmers see the advancing lava walls, thousands of feet wide, 30 to 40 feet high, carrying along great rocks, weighing tons. A bristling heat precedes the rushing lava. Human life is impossible within a mile; wells for miles around have dried up and vegetation is withering.

King Victor Emanuel was reported coming here to direct the relief work.

MRS. E. C. REEVE'S RECOVERY ASSURED

We are pleased to be able to announce that Mrs. Reeve, wife of Dr. E. C. Reeve, is now on the high road to recovery and expects to be able to leave the sanitarium in about one month. Mrs. Reeve's mental condition has cleared up wonderfully and completely her first letter since being taken ill being received by the daughter little Miss Rebecca. She is now recuperating from a second surgical operation and her physician says that when her physical strength is restored following this operation she will be back to her normal health, which is indeed good news to the many friends of Dr. and Mrs. Reeve in Clearfield.

Pinchot Lays Off For A Two Weeks Rest Before Tackling Legislation

Harrisburg, Pa., June 19.—For the first time since he became Governor five months ago Gifford Pinchot today laid aside the rigors of office for two weeks of practically unbroken recreation.

With the legislature adjourned and three weeks remaining in which to consider or reject bills, the Governor of Pennsylvania "took to the woods." Except for a few commencement addresses and a meeting of the Executive Board in Harrisburg June 27th, his time will be spent at his home in Milford with Mrs. Pinchot, who is returning from Europe Friday.

Scientists says the next war will be fought by radio. Way our radio sounds, it's going on now.

Real fighters at the Dempsey-Gibbons bout will be those trying to find a place to sleep.

California woman asks divorce so she can live in Michigan. Now California can laugh that off.

These are the days the permanent waves meet the wild waves, leaving only the permanent waves.

Additional Tea Tables

Mr. and Mrs. Harry Davis and family and Mr. and Mrs. Joseph Stoe motored to DuBois Sunday and spent the day with relatives and friends.

Mrs. Ord Wilson spent Sunday at the home of her daughter Mrs. John V. Snyder in Curwensville.

Mr. and Mrs. Jack Lester have left for Tappan Lake, N.Y., where they will spend the summer.

Charles Callahan and Gus Law-lawhead left today for Detroit on a short trip.

P. B. Read and Cecil F. Wilson have returned from Princeton University where they attended the end of the year ceremonies.

Mrs. Art Ecrement and sons, who have been spending the last two weeks at the home of Mr. and Mrs. Ernest I. Swales of Clark street, have returned to their home in Canton, Ohio. Mrs. Ecrement is a sister of Mrs. Swales.

Mrs. Ernest I. Swales, who has been ill at her home for some time, is able to be about again.

Misses William Spoke, Mary Fulton left for Marion Normal where they will take the summer course in teaching.

REBECCAS ENTERTAIN

A highly interesting and very much appreciated entertainment was given in the I. O. O. F. hall Monday evening by the Rebecca Lodge. A fine crowd was present and thoroughly enjoyed the following well-rendered program:—Violin solo, Mrs. Swales; vocal duet, Mrs. Lansberry, Mrs. Ward; whistling solo, Alex Black; piano duet, Mrs. Black, Mrs. McBain; vocal solo, Miss Kolbe.

Following the program games were enjoyed and a delicious luncheon served.

FORD MOTOR COMPANY CELEBRATES TWENTIETH BIRTHDAY ANNIVERSARY

Detroit, Mich., June 18.—The Ford Motor Company is twenty years old today.

And this birthday anniversary finds it enjoying the greatest prosperity in its history and engaged in carrying out an expansion program of enormous magnitude, necessary to bring manufacture up to meet the ever increasing demand for Ford Products.

In the score of years which have passed since its incorporation on June 16, 1903, the growth of the company has been amazingly rapid and now its activities extend to nearly every country on the globe and the Ford Car is in use in practically every land on earth.

The capital originally subscribed in the company was \$100,000 of which only \$28,000 in cash was actually paid into the treasury. Among the twelve stock holders with the company in its infancy Henry Ford held 25 per cent of the stock.

Ford "sold" his car to the public at the very start by practical demonstration for he piloted the first Ford racer himself and won race after race in all parts of the country. Driving old "999" on an ice track at Baltimore Bay, Mich., he was the first to break the mile-a-minute record.

In 1907 Mr. Ford acquired additional stock sufficient to bring his holdings in the company up to 58 1/2 per cent.

Development of the company since 1908 when the model "T" Ford Car was first placed on the market has been marked by unusual success until now it occupies the foremost position in the industry.

In 1918, Mr. Ford set a new standard for the industrial world when he announced his now famous \$5.00 a day minimum wage and the \$10,000,000 profit-sharing plan, a move that gains him international fame.

Many will remember, too, year or so later when announcement was made that if sales went to a certain figure every Ford purchaser would receive a rebate. The sales passed the figure and checks went out by the hundreds of thousands.

When in 1919 Edsel B. Ford assumed the presidency, his father turned over to him all the responsibility of that office and he has taken an important part in all developments of the company since that time. Upon becoming President, Edsel Ford purchased the remaining 41 1/2 per cent held by outside stockholders and on July 9, 1919 the Company was reorganized under the laws of Delaware for an authorized capitalization of \$100,000,000.

In his ambition to do the greatest amount of good for the largest number of people, Henry Ford always has kept the Ford car within the reach of the person of average means. Last October the price of Ford cars was again reduced, bringing the various types to the lowest level in the history of the company. And only recently the inauguration of the Ford Weekly Purchase Plan has opened the way to automobile ownership for additional millions of people who can now buy Fords on weekly payment as low as \$5.00.

The first car manufactured by the Ford Motor Company was on the road in June and sold the early part of July, 1903. In the initial year, 1903-04, the company produced 1,708 cars and each year has seen a steady expansion until in 1922 production totaled 1,351,333 and this year will pass the 1,500,000 mark, a figure which it is estimated will equal if not exceed the combined output of all other automobile companies in the United States.

Since its start the company has produced more than 7,750,000 Fords and sent them to all parts of the world and more than 6,000,000 are now in use in the United States alone. Manufacturing methods of the Ford Motor Company have been and remain the marvel of engineering experts of the world. All are based on the most scientific principles, dis-

Bedroom Wall Protection.

While visiting a friend I discovered her way of preventing beds from scratching the walls when moving them. Tucked to the baseboard at the head of each bed was a strip of picture molding a trifle longer than the width of the bed and painted to correspond to the woodwork. The casters rolled against the molding, and there was no danger of injury to the wallpaper.—Washington Post.

THE JUNE BRIDE AND HER GIFTS

It's an important step in the life of any woman when she becomes a June bride. She dates the rest of her life from that happy day. And it behooves her friends to make her gifts that she will cherish for the rest of her life.

We have just such gifts, whether it is some small item for personal use or some larger gift that she can share with others.

We want you to come in and see these gifts and see how little it will cost to make just the gift you'd like to make.

W. W. O'BRIEN

GIFTS for JUNE BRIDES

Come in and see the gifts that we have here for the June bride. First comes the various showers and we have a variety of gifts for these that will be just what you are looking for.

For the great event we have a wonderful array of gifts that any bride will appreciate. To name all the gifts we have would take a page of this paper but if you will take a few minutes and shop through the store, you will be sure to find just what you are looking for.

TAKE THE MILK OFF THE PORCH AS SOON AS IT IS DELIVERED

These mornings are hard on the milk as the atmosphere is such that it works on the various ingredients and soon turns the milk sour.

We want you to take in your milk as soon as the wagonmen deliver it and put it on ice. This will obviate the possibility of disappointment when you come to use the milk and possibly find it sour.

We put the milk there in the best of condition. Help yourself to keep it so by putting it on ice as soon as possible.

VIRGINIA

CHOCOLATE SHOP

Ford Motor Company.

(Continued From Page Two.)

tinctly individual in their advanced
steps and they bring quantity produc-
tion with high quality coming auto-
matically in the process.

Under its present expansion pro-
gram the company is carrying out on a
larger scale than ever before its
policy of effecting every manufactur-
ing economy possible. Thus with
costs cut to minimum all along the
line, from primary raw materials to
finished cars, trucks and tractors, it
is able to give the purchaser a high-
quality product at a very low price.

It has its own coal mines in West
Virginia and Kentucky and iron ore
mines and forests in northern Michi-
gan.

The Ford railroad, the Detroit, To-
ledo & Ironton, connects with practi-
cally every trans-continental line,
which affords unusual shipping facili-
ties.

At River Rouge, with a plant area
of 1,200 acres, the company besides
having the largest foundry in the
world, operates its own blast fur-
naces, machine shops, body plant, saw
mill, coke ovens, cement plant, paper
mill, power plant, locomotive repair
shops and the Fordson Tractor plant.

The parent plant of the company
in Highland Park occupies nearly
300 acres of which 123 are under
roof. Here are the general offices,
the Detroit sales branch, the boys'
industrial school and the world's largest
individual automobile plant.

The company has a glass plant at
Glassmere, Pa., another at Highland
Park and a third is under construc-
tion at River Rouge.

There are also manufacturing units
at Hamilton, Ohio; Northville, Mich.
Troy, N. Y., Iron Mountain, Mich.
and several points in and near De-
troit.

A \$1,200,000 building under con-
struction at Dearborn, Mich., will pro-
vide a new home for the Ford En-
gineering Laboratory. It also will
house the plant of the Dearborn Pub-
lishing Company, publishers of the
Dearborn Independent, the Ford In-
ternational Weekly.

There are thirty-four branches of
the Ford Motor Company, in the
United States of which twenty-eight
are assembling plants. These have
all been improved and enlarged with-
in the last year and today are produc-
ing cars and trucks at the rate of
6,700 every eight hour working day.

There are more than 9,000 Ford
dealers in the country and over 15,000
authorized Ford service stations
making a total of more than 24,000
points of contact with the motoring
public.

Foreign branches and associated
companies are located at Buenos
Aires, Sao Paulo and Montevideo,
South America; Havana, Cuba, Cop-
penhagen, Denmark, Antwerp, Bel-
gium, Manchester, England, Barce-
lona, Spain; Bordeaux, France and
Trieste, Italy. There also is a ma-
nufacturing plant at Cork, Ireland.

The Ford Motor Company, of Can-
ada, Ltd., located at Ford, Ontario,
just across the river from Detroit
has an annual output of 75,000 Ford
Cars and Trucks and does business
not only in Canada but in the British
possessions.

The Fordson Tractor was brought
out in 1917, during which year 254
were produced. It was developed
after years of work and experiment
by Henry Ford and his engineers and
presents a most sturdy and depend-
able power plant, easy and economi-
cal in operation. Like other Ford
products, it met with almost instant
success and at present the Fordson
plant at River Rouge is producing
tractors at the rate of 500 a day.

The Lincoln Motor Company, or-
ganized in 1917 to produce motor
cars of exceptionally high quality, was
acquired by the Ford Motor Company
at a receivers sale February 4, 1922
for \$500,000 and only recently Henry
Ford paid to the creditors of the com-
pany an additional \$4,000,000 to make
up the balance, though under no obli-
gation to do so.

The Lincoln Motor Company was
re-organized under the laws of Michi-
gan on March 29, 1922, for an author-
ized capitalization of \$15,000,000. It
is now known as a division of the
Ford Motor Company and has an an-
nual capacity of 10,500 motor cars.

Not only is the Ford Motor Com-
pany the greatest automobile manu-
facturing institution in the world to-
day, but it stands alone, a stupendous
industrial marvel, in every activity
of which there permeates the person-
ality and genius of its founder and
guiding spirit, Henry Ford. Adv

his appointment at the office of A. M.
Liveright in the Borough of Clear-
field, Pennsylvania, on Friday, July
13th, 1923 at ten-thirty o'clock A. M.

ODDS AND ENDS AND THINGS

By J. D. C.

Automobile drivers from the sec-
tions wherein the 17-year locust is
epidemic at present complain of the
winged pests invading their cars and
abighting on the occupants. At least
one serious accident, that at Barlett
Sunday morning, was caused by a lo-
cust. The driver of this car when he
saw the bug alight on his arm imme-
diately attempted to brush it off and
the accident occurred when he took
his hand off the wheel. It might be
well to add that a locust will neither
sting nor bite, as every fisherman
who has carried them in his pocket to
serve as trout bait will testify. There-
fore when a locust lands on you, don't
get excited. He can't hurt you even
if he wanted to and if you must wait
him stop the car before going after
your unwelcome visitor.

Informed taxation experts say that
the amount of taxes now paid by the
American people is larger than the
whole foreign trade of the United
States. This amount is four times
greater than the total profits of our
foreign trade with all the world. The
increase of American taxes in the last
few years comes to a larger sum than
all the exports of the United States
to all the nations on earth.

Locally and nationally, Americans
are taxed nearly \$8,500,000,000 a
year. That is \$50 on the average for
every man, woman and child, or al-
most \$360 a year for the average
American family.

The result of this is that while ten
years ago this country had about \$8-
000,000,000 a year of new capital for
new development work, today only
about \$4,000,000,000 a year is avail-
able. Taxes have quadrupled and
business has been crippled.

Talking Studebaker Is The Talk Of The Town; A Novel Advertisement

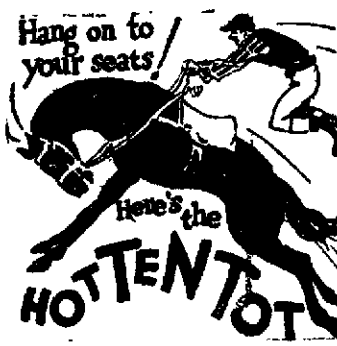

Here is one of the things that a
man must see to believe. Of course
we knew that Studebaker had a
reputation for truth and honesty but
when they told us they would raise
an automobile here that would answer
all kinds of questions in a human
voice we thought they were kidding
us. We even considered banning
such advertising from the columns of
The Progress. But we have seen it
and it really does answer question
in a human voice.

The car is jacked up off the floor
and no wires or other paraphernalia
are visible. There is no radio equip-
ment or any other hookup to reveal
the secret of the machine. Ask this
Studebaker question about its engine
and a clear voice in reply comes out
of the hood. Ask a question about
the body and the voice comes from
the body. Ask about the tires and
the voice comes from the tire ad-
dressed.

Over in Altoona recently this car
was standing along the street and a
woman who passed was hauled by it.
She gave a look and gain heard the
voice coming from the engine hood.
That was too much. She fled in fear.
So if your heart is weak stay away
from the Talking Studebaker which
will be here tomorrow at the Ester
garage.

Why Thirteen Is Unlucky.
Thirteen is supposed to be the un-
luckiest of numbers. In ancient times
it was quite the reverse. Men in those
days always counted in dozens, and
it was customary to add one "for luck".
The baker's dozen is a modern sur-
vival. The present belief that thir-
teen has a baleful influence comes
from the Last Supper, when Jud
Ischariot was the thirteenth at table
and the first to flee from the altar.

Woman Seeks Advice.
"Dear sir," writes a woman, "our
family name is Legg and we have a
two-months-old baby boy. I have
named him Walter, but his father has
begun calling him Boot and the nick-
name sticks. If you were me, what
would you do about it? I don't want
one of my children known as Boot
Legg."—New York World.

It'll have you off your seat
riding all the way.

Entered in Post Office at Clearfield, Pa., as second class mail matter.

Six little children are left fatherless today at Washington, D. C., because their fool dad wanted to prove that he had "nerve." Leaving the family brood in the flivver he hired an airplane taxi to take him for a ride. Not content with the ride he attempted to dive from the wing of the plane into the Potomac River. As he swung into space he cried out, "I have plenty of nerve."

But did he? He must have expected his family to have more. At least he subjected them to the necessity of having more.

This evening one of those dampfools who advertise themselves as a human fly will climb to the top of the Philips Hotel at Philipsburg. In doing so he will subject many people to the danger of fainting and heart failure. No good can come out of such an exhibition. It is to be hoped that Mayor Kittelberger will not allow the exhibition here. Many cities have banned such exhibitions.

We have often informed the readers of this newspaper that we regarded the Clearfield Park as a real asset to the town, and one which our people should appreciate. Just how much of a "community proposition" the Park is, and what a necessity and advantage it is to our people generally, we give herewith a schedule of the activities at the Park during the year 1922. Here it is and it is not only worth reading, but will be surprising, at least to those people who have not given much thought to what an important part the Park plays in the recreational life and activity of the town and community generally:

CLEARFIELD PARK ASSOCIATION ACTIVITIES, 1922

- May 30.—C. H. S. Athletic Association Annual Program.
June 6.—600 pupils Clearfield High School, all day.
June 15.—Clearfield Firemen's Reunion, evening in Exhibition Hall.
June 20.—B. P. O. E. supper and dance, afternoon and evening, Exhibition Hall.

This does not include baseball and football games, or the use of track and stables for the season race horse training.

PROOF THAT THE CHARGE
HAS BEEN PAID

If you haven't a checking account you are missing one of the greatest safety devices in modern business. It would enable you to avoid the danger of losing currency carried around with you, and of having to pay a bill twice. The endorsement, on the back of your check, is valid acknowledgment that the charge against you has been paid.

CLEARFIELD TRUST CO.

IT'S A DOG'S LIFE!

TRINITY CHURCH ITEMS

Sunday was a gala day at Trinity. The Bible School was deeply interested in the study of Esther, the Religious Patriot, with the exceptional music and other events, made a very profitable period. The scene in the auditorium which the baptism of eighteen infants presented, banked up with a noble floral design, was participated in by a great congregation. The exercises of Children's Day, worked out a very impressive program, entitled "The Secret Whispered to Children" which was no other than "get a Christian Education." This was presented through the four seasons beginning with fables, flowers, birds and other wonderful living things. First came Winter soon to be accompanied by ten little folks dressed in white, representing snowflakes, and they nestled around sleeping flowers. This was followed by Spring, and butterflies, and then Summer, with its reaping, and Autumn. No description of this presentation can adequately set forth the beauty of this program.

The choir rendered their parts with fine effect. All music by the little folks was a rare treat for the older people, who heard the interpretation of autumn leaves, snowflakes, raindrops, etc.

The School attendance passed the pastor's figure, (he wanted no less than 500) by ten. Offering for the Education Funds by the School in its session was \$82.85. The congregational offering was \$43.

Mount Zion had a thronged school house to witness the very beautiful and significant exercises of the children. The offering was \$14.03.

In the evening the pastor preached from Luke 5:1-11 on Christ's selection of the first disciples from the fishermen.

The week's events: Wednesday mid-week congregational prayer and praise meeting.
The Woman's Home Missionary Society of the Annual Conference is holding a Carrie Barge House Party in Williamsport Dickinson Seminary from Monday, 18th to 25th. Trinity Church has already sent down Mrs. H. J. Flegal, Mrs. C. A. Weisgarber, Mrs. George Zerfoss and Miss Charlotte, Margaret Thorn, Leah and Margaret Gilliland, Mary Ellen Knepp, Mildred Bratton, Evelyn Cowdrick, Helen Imdorf, Annie Hall, Miriam Porter, Garnett Goss, Georgianna Cathcart. The week end will take others for the Sunday events.

Trinitrotoluene.
"T N T" is an abbreviation for trinitrotoluene, a very powerful explosive used in shells, mines, hand grenades and torpedoes. It is formed from toluene by treatment of this hydrocarbon with strong nitric acid in the presence of concentrated sulphuric acid. Toluene is one of the products of the distillation of coal tar. T N T crystallizes in almost white needles, and at ordinary temperatures it is quite stable; it burns with a smoky flame when ignited. In its chemical composition the molecule of trinitrotoluene consists of seven carbon atoms, five hydrogen atoms, three nitrogen atoms.

Maine Coast.

Sparkling blue water, Christmas tree shores, great gray boulders, leaping white surf, Island after Island jutting rocks, crowned with little white lighthouses, green, sunny glades with summer homes amid sheltering pines; long, low rounded hills and cattle against the sky line. Thriving towns, sleepy villages, picturesque landing places in summer happy pleasure seekers strolling on shore, speeding in motor boats, flitting by in sail boats. In winter, glitter of ice and snow, weather-beaten, softly-tinted fishing smacks; shrewd, wrinkled, weather-seasoned fishermen. Summer and winter, green of spruce and pine, tang of crisp balsam air.—Christian Science Monitor.

WHO FIRST FELT
"LIKE
A
FIGHTING
COCK"?

COCK-FIGHTING was born with the cocks.

But it is only 80 years ago that the first man felt "like a fighting cock!"

Now he has brothers, sisters, nephews, nieces, all over the world—all feeling "like a fighting cock!"

It happens this way. A person half sick with bad stomach, dull and heavy headache, takes Beecham's Pills just before going to bed. Immediately the Pills begin to harmonize the digestive and eliminative organs.

Consequently, this person has a good night's sleep and arises in the morning with clear brain, bright eye, keen appetite, and full of energy for work and play.

It is now just 80 years since Beecham's Pills first began correcting disordered stomachs and stirring sluggish livers and bowels to natural activity—and feeling "like a fighting cock" is associated as inseparably with Beecham's Pills, as the pills are with good health.

Progress Editorial For Women

QUESTION AND ANSWER
By FLORENCE DAVIES

A QUICK LUNCH

Three women, one just a silent listener, sat around the little restaurant table. The younger generation furnished the sauce. The two who were on their sundays were agreed that Betty was "nothing but a baby," that she had no self-reliance, no power of decision. Running about with the boys was her great idea of life.

"I am glad she is graduating and will be thrown on her own resources. It will teach her something," said the young woman in the green hat.

"Well, in the meantime, I can't tell her mother how she is carrying on, now can I?" said the friend in the beaded overblouse. "Because, if her mother doesn't watch her—"

"Yes, that's so," agreed Miss Miss Green Hat, as the two went to pay their checks.

The listener's Virginia ham and rolls arrived just then. She had only time to ask herself, "What is the answer?" when a stout gray-haired woman and a pretty, younger woman sat down at the little table. They began at once to talk about "Bill."

"He's telling the truth now," said the younger woman positively. She might have been Bill's mother. Surely number two was Grandmother. "There he is now," as a sulky-faced, slim boy with a cornet case passed the door and went up to the telephone booth. "He's trying to get me, I'm sure he is. Wait a minute," and out

she dashed.
"He's gone and enlisted with the marines," confided Grandmother. "Those fellows go up to the bank and worry the boys till they get 'em. I got Bill a cornet—had to hear from the whole family about it—but he's possessed to get away."

Mother and Bill came in and sat down. Bill sourer-looking than ever. "You're not going through with it: You ought to be glad we can get you off. Why, you'd be subject to call all your life," said Mother. "You want to go to college and live in a frat house—you'd have a lot more fun."

That's what's the matter of 'em already, too much fun," put in Grandmother.

"And that's the answer," the listener thought to herself.

Time Enough.

In Nevada a woman's club with charitable leanings staged a radio-ville show at the "University of Time," as the state school institution is facetiously called. One of the women had to return to town early, and not wishing to disturb the other entertainers she appealed to the officer in charge they had been placed. The latter courteously offered to send her home in his car with a "lady" chauffeur. After mulling up, the homeward journey with the chauffeur the lady regretted her rashness and decided to extricate herself at all costs. "Are you sure you have time to take me all the way to the city?" she nervously began. "Well, madam, the convict answered, "I have got gallons of gas and fourteen years."

Curwensville's Own Column

Henry Heitmanrath has sold to Joseph Fullerton that portion of the building that he occupies as a billiard and bowling alley. Henry is going out of business in Curwensville for a while and will store his tables and other paraphernalia until sale is found for the same.

A 12-foot concrete walk is in course of construction in front of the dwelling occupied by Lynn Dougherty and family. Ed Pratt is the mechanic, genius who has charge of the improvement.

Painters put in all day yesterday decorating State street with streets of paint designating stalls for automobile parking. It is a good stunt, but how long will it last.

Frederick Forecy, son of Guy Forecy, had a serious mishap yesterday forenoon. He went out to the garage for a drink of water, slipped and fell, striking his head on some sharp object, getting a gash about four inches long across the forehead and into the bone. A physician was hastily summoned who found it necessary to use a number of stitches to stop the flow of blood and thus the injury.

William Bartell and family and John Connelley and his family left town yesterday morning for a two weeks motor trip. Their itinerary will take them into West Virginia, Kentucky and Ohio.

William Milliron went to Tyrone Sunday to meet Mrs. Milliron, who was returning home from a lengthy visit with a daughter at Washington, D. C. She was in the city during the Shriner's convention.

Mr. and Mrs. Andrew Anderson, High street, motored to Patton Saturday and spent several days with friends.

Harry Rheades and family, George street, took a motor car ride over to Altoona last Saturday and remained with friends until Sunday evening.

Miss Alice Jane Gray, of Carnwath, a daughter of Mine Foreman Jack Gray, and a former resident of Curwensville, is a guest of Miss Margaret Helen Moore.

Mrs. Warner, of Clymer accompanied by her daughter Mrs. Georgia Passmore, were guests in the home of Mr. and Mrs. Al Maurey, State street, for several days this and last week.

Miss Libian Olson departed yesterday for Clarion where she will become a student at the Normal school for the next three months.

The following named Curwensville young people left for Lock Haven yesterday to enter as students at the Normal school: Misses Edith Sawtelle, Lois Vaughn, Marjory Murray, Patricia Ardary, Mabel Daul, Lucy Bennett and Leonore Test. Reuben Moore and Byron McDowell also went down the river, having the same purpose in view.

Ira Knepp, High avenue, is confined to his home with an injured knee.

Miss Esther Wigg and her sister, Mrs. John P. Irvin, departed yesterday morning by motor car for a three or four day trip to State College and Bellwood.

Miss Vergenia Kennedy, of Philadelphia, is the guest of several friends this week. The Kennedy family were former residents, the father being the superintendent of Summit tannery for several years, later removing to Reynoldsville where he died.

Mr. and Mrs. Charles Lord and daughter, High street, went to Bellwood and spent the week end among friends and relatives.

Mrs. Lew McDonald, High street was in Ansonville the latter part of last week circulating among old friends and acquaintances.

Charles B. Keller of Harrisburg and Miss Dorothy H. LaBorde of Curwensville were united in marriage Tuesday evening, June 12th, at 5:30 o'clock at the home of Mrs. Marian Good, Harrisburg, by Rev. J. Merrill Williams, pastor of Trinity M. E. church. The bride is a well and favorably known lady of Curwensville, who taught several successful terms in our public schools. The young couple came to Curwensville during the middle of last week and spent several days in the home of the bride's parents, Mr. and Mrs. B. J. LaBorde, George street, where they received the hearty congratulations of the bride's many Curwensville friends. May their pathway be free from thorns but strewn with roses, emblematic of the beautiful month in which they were wedded.

Miss Minnie Brown, a vivacious young lady of Indiana State Normal school, spent the week end with her friend, Miss Jeanette Miller, Thompson street.

Today Curwensville was given over to the Tall Cedars of Lebanon, who swarmed here from all directions to the number of over one hundred. The invasion was made for the sole purpose of instituting Keystone Forest No. 98, the work being done in the Curwensville Opera House by the visitors, including some officers of high rank in the order. Ebenburg Cedars brought a baffle with them which added greatly to the musical part of the work. The new Forest starts out with a membership of over one hundred. Dinner will be served by the ladies of the Presbyterian church at 6 o'clock, and a parade is announced to take place over the main streets of town at 5:30 p. m.

Childish Philosophy. A little girl aged six was asked to state the difference between pride and vanity. After considerable thought she replied: "Pride means, 'I don't think much of you'; vanity means 'What do you think of me?'"—Boston Transcript.

Expressive. Muriel had been to visit a little friend of hers who seemed overprovided with funny relatives. "Mamma" she remarked on returning home, "I feel sorry for Nanna; she's got so many look-after-her-its—Boston Evening Transcript.

780 Studebakers Are Shipped On Banner Day Of Corporation

Big Plants at South Bend and Detroit Bending Every Effort to Meet Country-wide Demand For More Studebakers

When the whistles of the mammoth Studebaker plants at South Bend and Detroit sounded on the evening of May 29 and 20,000 Studebaker employees started homeward, a new record for a single day's production and shipments had been made, for on that day 780 Studebaker cars were forwarded to Studebaker dealers throughout the country. Of the total, 189 were driven overland.

This record represents a single day's production and was achieved without permitting cars to accumulate purposely to establish a new mark. The only extra incentive involved was an effort to more adequately meet the insistent demand from every section of the country for more Studebakers, but this is a daily endeavor because of the thousands of unfilled orders on hand for immediate shipment.

While the production of 780 cars in one day establishes a record for Studebaker, the total is only a little above regular, daily shipments since the additional facilities provided by seven new Studebaker factory units completed and tooled and manned early this Spring, reached capacity production. Although Studebaker's present output is 15,000 cars a month or at the rate of 180,000 cars annually, the demand is far in excess of production and additional factory facilities, begun this Spring and to cost \$5,000,000 are being rushed to completion.

Studebaker manufactures six-cylinder cars exclusively, in three models—the Big Six, Special Six and the Light Six—which are offered in twelve body types. 780 cars, in one day, therefore, represents the biggest day's shipment of six-cylinder cars ever made by any manufacturer.

The increasing popularity of Studebaker cars, which is a subject of common conversation even outside of the automobile industry is attested by the early record of production and sales. In 1918 Studebaker sold 23,864 cars. The following year sales increased to a total of 39,356 cars. In 1920 sales mounted to 51,474 cars.

1921, the year of general business depression, was the biggest in Studebaker's history (up to 1922) when sales reached a total of 66,643 cars. Stated otherwise, the sales of Studebaker cars in 1921 were 29 per cent greater than in 1920, notwithstanding the fact that the total number of cars sold of all other makes, except Ford was 40 per cent less than 1920. Studebaker again established a new record in 1922 with the sale of 110,269 cars. This year will see still another Studebaker record established. Up to July 1 Studebaker will have produced and sold about 80,000 cars, or an increase of 50 per cent over the same period of 1922.

"There are a number of reasons for the universal popularity of Studebaker cars," according to Estep Bros Motor Co., local Studebaker dealer "But chiefly:

"1) Because of their quality, durability and dependable performance in owners' use.

HEARD ALONG THE BANKS OF THE MOSHANNON

The 17-year locusts have just made their appearance in the Hawk Run section. The young people who never before heard of the queer things they shocked to hear the odd noise they made. The trees hereabouts are now beginning to buzz with the voices of their new inhabitants.

Curtis Park, the new residential section on the upper end of South Centre street, is now reaching the stage when it is considered more than a dream. A number of houses have been completed, with one now under construction, that of J. W. Wetter. It is a very beautiful dwelling and occupies two lots on the corner of Curtis Parkway and Drury Court. Another residence, which has been under construction for the past two weeks is that of John F. O'Neill, coal-operator of Morrisdale. It is of red tapestry brick and contains six rooms, a hall and bath. T. E. Dickens, of Philipsburg, is the contractor of the O'Neill home, while the Bellefonte Lumber Company, of Bellefonte and Philipsburg, is building the Wetter home. Both are very beautiful structures and represent a great expenditure.

William P. Knobe, a member of the Osceola Mills High School faculty, whose duties there were completed a couple of weeks ago, will leave for Camp Meade, Maryland, on June 26 to become a member of the citizens' training camp from Clearfield county.

ability and dependable performance in owners' use.

"(2) Because by manufacturing sixes exclusively on a large scale and by building all vital parts in its own plants, Studebaker can effect economies and save the middlemen's profits, and thereby provide maximum value and quality at a low price.

"(3) Because, in the three models of Studebaker cars we have a car of the exact size, style and price to suit every buyer.

"(4) Because with \$35,000,000 of actual net assets, including \$45,000,000 of plant facilities, Studebaker stands unsurpassed in ability and resources to manufacture economically and give the greatest intrinsic value possible for a given price.

"(5) Because of the name Studebaker, which for 71 years, has stood for high grade transportation, integrity, quality, value and comfort."

MRS. G. W. HALL SICK FOR YEARS

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Lima, Ohio.—"Indeed, your medicine is all you say it is! I had very severe troubles such as women often have, and could do no heavy work. I was sick for several years, and from reading your ads. I finally decided to take Lydia E. Pinkham's Vegetable Compound. I am now doing my own washing, which I haven't done for several years, and can walk long distances without those dragging pains and weak feelings. The Vegetable Compound is fine, and I never forget to say a good word for it to other women when they say they need something."—Mrs. G. W. HALL, 539 Hazel Avenue, Lima, Ohio.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling. Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved these symptoms by removing the cause of them. Mrs. Hall's experience is but one of many.

The Centre and Clearfield Ministerial Association held its monthly meeting Friday at Lakeside Park, Morrisdale, in the form of a picnic dinner. A number of ministers and their wives were in attendance and all enjoyed the outing immensely. Rev. Charles F. Kulp, of Philipsburg, read a paper on "Science and the Scriptures."

Death on Friday morning claimed one of Morrisdale's most highly esteemed residents in the person of Mrs. Margaret Stevenson. She had been ill with dropsy many years, but was forced to take her bed only two days prior to her demise. She was born in Ireland on April 13, 1846. She came to this country when but a child, and for the past 40 years has resided in Morrisdale. She was a devout member of St. Agnes Catholic church in that place. Her husband preceded her to the spirit world 20 years ago. Four sons and one daughter survive and one daughter died a couple of years back. The latter was the wife of Frank Howe, of Morrisdale.

William F. Mease, of Philipsburg is mourning the death of his sister, Mrs. David Eves, which occurred at her home in Half Moon Valley on June 11. Four daughters and two sons survive. She was well known by many in this section.

LAST NIGHT'S HORSESHOES

The final games between Flint and Smith last evening resulted in Smith winning two games and the series.

		Ringers	
	Points	Single	Double
7th Game—			
Smith	50	18	3
Flint	46	15	3
8th Game—			
Smith	50	13	3
Flint	25	11	2

Totals for the eight games: Smith 368 points, 156 ringers; Flint, 309 points, 137 ringers.

This series puts Smith in a position for a try at Johnson, county champion.

Thrills the Watchword. The thoughtful man roasts not that which he took in hunting but the substance of a diligent man is precious.—Solomon.

BASEBALL NOTES

Sam Shauls, the new catches showed up well in practice last night and looks like a real find. Sam will show his stuff in DuBois today.

Peterson worked out at third base last night. Pete is playing out of his place, but showed that he was not afraid to take a whirl at third base. If Mahaffey comes back Peterson will play in his regular position which is second base.

The boys were full of pep last night and feel as though they will cop the game at DuBois today.

Thursday the boys will play the hardest game of the season so far, when they meet Osceola here.

Gol Robinson has been coming along in fine shape and keeps the pep up in his regular position which is second base.

All the ladies should turn out to Thursday's game and give the boys a hand.

The new uniforms are ordered now and should be here shortly. The team will make a snappy looking outfit when they appear in their new togs.

**Cold Creams
For Sunburn**

If your week-end trip gave you a coat of sunburn, cold cream is the thing that will give you the greatest relief. We have one that will soothe the burn and give you rest.

**Aughinbaugh's
DRUG STORE**

**Give The
Week-End Guest
a Treat**

It's the easiest thing in the world to make your own ices and ice creams—and they always taste so much better than those "manufactured"

**Buy an
Auto Vacuum Freezer**

No crank to turn.
No effort to make the ices.
No parts to get out of order.

TWO QUART SIZE PRICED AT **\$5.50**
Come in and let us tell you about them.

**THE GREAT WHITE SALES
CONTINUE ALL THIS WEEK**

Here is your opportunity to save on White Goods.

A. W. LEONARDSON CO.

Crowded China
China is larger in area than the United States, Mexico and Central America. It has four times the population of the United States, eight times the population of all South America, almost equal the population of all Europe and one-quarter of the population of the world. The Yangtze delta with an area about equal to Illinois, has a population of 40,000,000, or 400 to the square mile.

Forecasting Weather
When the mercury falls suddenly, in hot weather, look out for thunder and high winds. In frosty weather a rise is foretold. When the weather is already wet and the mercury continues to descend, more rain can be expected. During winter, if the air above the mercury is unsettled, with clouds and ice, unsettled weather conditions are likely to prevail.
